| Numbers | Maximum 16 |
| Cost | £140 per person inc. tea/coffee & lunch |

Take some paper, card, plasticine, clay, or found objects and make them move! Using a simple web cam and capture software, children can make their own animated movies.

This one day course is aimed at teachers who would like to use stop frame animation projects to support teaching and learning. No prior experience of animation is necessary.

Preparing, planning, scripting, filming and editing animated movies provide opportunities for developing all four **Curriculum for Excellence** capacities as well as being an ideal way of incorporating **Interdisciplinary Learning**. Animation can be used with all age groups as a medium to explore any curricular subject or topic.

Participants will create a short animated movie over the course of the day. Various animation techniques

will be covered as well as practical tips, tricks and advice on managing animation projects in the classroom. All equipment is provided along with a range of materials to animate.

Venue

The session will take place in **Parklands Country Club**, Newton Mearns. Parklands is just two minutes from J4 of the M77, just outside Glasgow.
